

Exiting Data 2004-2005

The data include students with disabilities between the ages of 14 and 22 who have exited the special education program during the school year 2004-2005 (July 1, 2004 through June 30, 2005). The codes and definitions used to report exiting data are as follows:

- 01 Returned to regular education.** These are students who were served in special education during the reporting year, but at some point during that 12-month period returned to regular education as a result of having met the objectives of their IEP. These students no longer have an IEP and are receiving all their educational services from a regular education program.
- 02 Moved, known to be continuing.** These are students who have moved out of the catchment area (see definition below) or otherwise transferred to another district and are KNOWN to be continuing in another educational program. There does not need to be evidence that the student is continuing in special education, only that he/she is continuing in an education program. This includes students in residential drug/alcohol rehabilitation centers, correctional facilities, or registered home schools.

CATCHMENT AREA is defined as the elementary school district AND the high school district or the K-12 school district that the student would move through in the normal progression of his/her education.

Examples of “Moved, known to be continuing”:

- Student has moved out of the catchment area within or outside the state and records have been requested by another school district.
- Student no longer attends public school, but the school is aware that the student is being educated in a registered home school, or in a private school. (A registered home school means the home school is registered with the county superintendent in the county where the home school is located.)

- 04 Dropped out.** These are students who were enrolled at some point during the reporting year (July 1, 2004 – June 30, 2005), were not enrolled at the end of the reporting year, and did not exit through any of the other exiting codes described. This would include dropouts, runaways, GED recipients, expelled students and status unknown.

Examples of “Dropped out”:

- Student no longer comes to school and the school district cannot locate the student.
- Student and family have moved from the catchment area, but the school district has no knowledge that the student is continuing to receive education services (no request for records).
- Student from a Hutterite community leaves school after the 8th grade and his/her family is not registered as a home school.
- Student studied for GED during his/her school attendance, but in order to take the GED test the student cannot be attending school, so the student leaves.

- 15 Reached maximum age.** These are students who have exited special education because they have reached the maximum age for receipt of special education services, including students with disabilities who reached maximum age and did not receive a diploma. These students must be at least 20 years old on the Child Count date of December 1, 2004.
- 22 Died.** These are students who died during the reporting year (July 1, 2004, through June 30, 2005).
- 23 Graduated with a regular high school diploma.** These are students who have exited the special education program through receipt of a high school diploma identical to that for which students without disabilities are eligible. These students met the same standards for graduation as those for students without disabilities. These students must be at least 16 years old on the Child Count date of December 1, 2004.
- 32 Received a certificate of completion.** These are students who have exited the educational program and received a certificate of completion, modified diploma or similar document.
